

Airline Partner Award Redemption Structure

Airline Partner Award Redemption Structure

JPMiles required for redemption on our partner airlines will be revised for all award flight bookings received on or after 1st April 2016. As part of these changes, we have simplified the Zone structure and adjusted the redemption requirement for Partner awards between each Zone. Please refer to the Revised Zone Chart to identify the zone of your origin city/ country and the corresponding zone for your preferred destination. Based on the Origin and Destination zone, refer to the Revised Redemption Chart to determine the number of JPMiles required for your travel.

Example: Sydney – Singapore would fall under Zone 01 – Zone 03 which would require 40,000 JPMiles for an economy one-way Award booking on any Partner Airline.

Airline Partner Award Redemption Structure

Note:

- The JPMiles shown in the above table & in the examples below are estimates only, and are subject to change. To know the exact number of JPMiles required for an Award Flight with our Partner Airlines, please send us an email at jpredemptions@jetprivilege.com
- JPMiles requirement shown in the above table is for one-way economy travel for an adult or a child
- Redemption on Partner Airline for Infant is not allowed
- The JPMiles requirement for one-way travel on Business class will be twice and First class one-way travel will be thrice of what is mentioned in the table
- JPMiles requirement for Redemption on Partner Airline will be as per the Zones mentioned above and not as per the Partner Airline
- Members will have to pay the Taxes as determined by the Airline and will differ from Airline to Airline
- For Partner Award bookings received till 31st March 2016, the redemption structure of JPMiles requirement will remain unchanged
- N/A = Not Applicable means that the JPMiles required for that zone combination is not available for a direct flight. The member can however try combining 2 different zones for that same Origin/Destination

Example: If member wants to travel from Mumbai (Zone 04) to Atlanta (Zone 10)

> **Direct Zone** - (Zone 04) to (Zone 10) = N/A

> **Combining 2 different Zones** - Member can fly via different zone, example via Frankfurt = Miles calculation will be for Mumbai (Zone 04) to Frankfurt (Zone 08) + Frankfurt (Zone 08) to Atlanta (Zone 10) = 42,000 + 42,000 = 84,000 JPMiles

- In case of connecting journeys:

Example 01: If the stopover is less than 24hrs:

> Travel from Mumbai to New York via Istanbul. Miles calculation will be for Mumbai (Zone 04) to New York (Zone 09) = 60,000 JPMiles

Example 02: If the stopover is more than 24hrs:

> Travel from Mumbai to New York via Istanbul. Miles calculation will be for Mumbai (Zone 04) to Istanbul (Zone 08) + Istanbul (Zone 08) to New York (Zone 09) = 42,000 + 40,000 = 82,000 JPMiles
